Clinical Research Management, Inc. (CRM) is committed to making positive global contributions to biomedical research. Collaborating with government and commercial organizations, CRM has contributed to the development of vaccines, drugs, and devices to help prevent, diagnose, and treat human diseases in the U.S. and overseas. Our cGLP, cGMP, and cGCP (cGxP) services, including data management using Oracle Clinical™, will accelerate your project's development toward FDA licensure. We also offer program management with on-site staffing for most stages of drug development. CRM is located in Frederick, Maryland; Africa; Asia; and our corporate office is in Hinckley, Ohio.
